

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

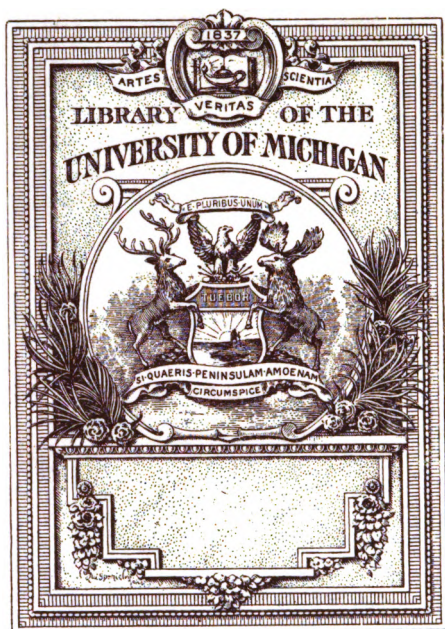

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. You can search through the full text of this book on the web at <http://books.google.com/>

SIXTH ANNUAL REPORT
OF THE
Board of State Assessors
OF THE
STATE OF MAINE.

1896.

AUGUSTA:
BURLEIGH & FLYNT, PRINTERS TO THE STATE.
1896.

REPORT.

AUGUSTA, December 1, 1896.

To His Excellency, the Governor, and the Executive Council:

The Board of State Assessors would respectfully submit the report required of them by law.

We give the statistics derived from the returns from the local assessors of the several cities, towns and plantations, with schedules of all corporations on which State taxes were assessed during the year, and a tabular statement of the State valuation by towns, as fixed by this board, acting as a board of equalization.

STATE ASSESSORS' REPORT.

**A Schedule of Valuation Returns as Made by the Assessors of Each City, Town and Plantation for
the Year 1896, with Summaries of the Same.**

STATE OF MAINE.

IN BOARD OF STATE ASSESSORS,
AUGUSTA, December 1, A. D. 1896.

We, the undersigned, being the Board of State Assessors for the State of Maine, do hereby certify that the following is a true statement of the amounts of the assessed valuation for each town, township lot or parcel of land not included in any township, after adjustment as provided in section 13, of chapter 103 of the Public Laws of 1891, together with the number of polls, aggregate amount for each county, and for the entire State, as fixed by said Board of State Assessors acting according to law as a Board of Equalization.

OTIS HAYFORD,
GEORGE POTTLE,
WM. C. MARSHALL,
Board of State Assessors.

In presenting this the sixth annual report of the State Assessors and the third biennial State valuation, we are not unmindful of the fact that so large a percentage of increase does not appear as in former years. This may readily be accounted for when it is known that we have endeavored, not so much to increase the State valuation as to more thoroughly equalize present values. We have in addition to this also to meet the depreciated condition of values of all classes of property both real and personal. We find that the late act relative to shipping places the present value at \$2,531,693, as against the value in 1894 of \$6,346,228, a reduction of \$3,814,535. We have also been forced to reduce our standard of values on live stock to the extent of over one-half million of dollars, and a total reduction in value of \$791,902.

In these two items alone we have to meet and overcome a deficiency of \$4,606,437. While real estate property has more generally been returned at nearly its former value, personal property valuations have largely fallen off, in total or aggregate amounts. After meeting these depreciations we have a total State valuation of \$328,500,949 as against \$324,478,321, an increase from 1894, of \$4,022,628, and this we can but think is a fine showing for the year 1896, when it is further known that the total valuations of more than one-half of the towns in the State have been reduced, this, however, applies almost entirely to the small and poorer towns, being largely rural districts, that are not holding up to their former standing, but are gradually and surely growing less in wealth and population. We find an increase of 3,491 polls from 1894, the returns last April showing the number to be 180,176 and a corresponding increase in population of about 15,000.

The returns received from the hands of the local assessors during the past two years have, as a whole, been highly satisfactory to this Board and much credit is due them for the faithful and efficient manner they have performed their work. We desire, however, that more of them in the future will include bicycles in their personal property, and use the same effort to obtain in full this property and enter its value on their lists as

other classes. The total value of bicycles as affixed this year amounts to \$384,281, which although a considerable amount, does not in our opinion represent their entire value into a large percentage. Again, in the matter of returning money at interest and other securities, we can hardly think that all assessors employ the same care and use the same diligence and effort to obtain the full amount of this class of property.

A large proportion of them, however, have shown by their work that they do not intend to have it escape taxation.

We would again call the attention of assessors to the absolute necessity of making their returns correspond with our duties under the law, and have all property valued at its full market value. In some cases values are returned to us for a less amount and on a fractional portion of a full value. Many have heretofore returned only the number of polls taxed. We desire, in addition to this, the whole number of polls in city, town or plantation, as the case may be.

In conclusion, we desire to express our obligations to all whom we have met in the performance of our duties, to them we are deeply indebted for the results we have been enabled to reach.

OTIS HAYFORD,
GEORGE POTTLE,
WM. C. MARSHALL,
State Board of Assessors.

ADDENDUM.

The following table gives the total number of acres, as corrected, of wild lands, exclusive of public lots in the State of Maine, A. D. 1896:
